

Amendments to the Specification

Please amend the specification as follows:

[0001] This is a divisional of U.S. Patent Application No. 10/159,634, now U.S. Patent No. 6,704,624 issued March 16, 2004, and claims benefit to U.S. Provisional Application No. 60/364,554, both of which are hereby incorporated by reference herein.

[0013] In light of the problems associated with motorized golf carts, the present applicant disclosed motorized golf carts provided with hitches in U.S. Patent Application Serial No. 09/924,039 filed August 7, 2001, now U.S. Patent No. 6,715,774, and U.S. Patent Application Serial No. 09/961,882, filed September 24, 2001, now U.S. Patent No 6,739,604, both of which are hereby incorporated by reference herein. Wheeled pull carts can be attached to the hitches. Through spring forces, for example, energy may be stored to assist the golfer in raising the center of gravity of the pull cart and to lift the wheels.
